I am a working Mum who moved from the UK to the USA in 2003. I have a beautiful little girl (born in 2007) and a wonderful husband. I started this review site to help other parents find great products that would make their lives easier and more fabulous. I love to spend time with my Daughter and I am always on the look out for products that give me more time to do that and that make play time more rewarding and educational for her!

Her favorite technique is Macrame knotting with wire, which results in an ethereal and romantic piece of jewelry.

The collections have participated regularly on the runways of major fashion weeks.
